**DETAILED ACTION**

1. Claims 17-28 are pending in this application.

***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 17-28 (in part), drawn to R5 = 3-oxo-3,4-dihydro-2H-pyrido[3,2-b][1,4]thiazine derivatives (see Examples 9, 11 and 13).

Group II, claim(s) 17-28 (in part), drawn to R5 = 3-oxo-3,4-dihydro-2H-pyrido[3,2-b][1,4]oxazine derivatives (see Example 12).

Group III, claim(s) 17-28 (in part), drawn to R5 = 2,3-dihydro-[1,4]dioxino[2,3-c]pyridine derivatives (see Example 6).

Group IV, claim(s) 17-28 (in part), drawn to R5 = others.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I is a pyrido[3,2-b][1,4]thiazine ring and is different from the special technical feature of Groups II-IV. The special technical feature of Group II is a pyrido[3,2-b][1,4]oxazine ring and this special technical feature is not present in the

Art Unit: 1624

special technical feature of other Groups. The special technical feature of Group III is a 1,4]dioxino[2,3-c]pyridine and is different from the special technical feature of Groups I-II or IV. The special technical feature of Group IV is others (i.e. core structures that don't fall in Groups I-III, e.g. bicyclic carbocyclic ring) and is different from the special technical feature of Groups I-III.

If Group IV is elected, an election of a single species is required.

A telephone call was made to Mr. Chris Miller on Nov. 7, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Note that applicants referred this case as PCT/US03/06754 in the claim set (12/16/04), but it should read as PCT/EP03/06754.
